Soil Conservation Edition Next Week

Next week, The Comanche Chief will publish its annual SOIL CONSERVATION issue.

This annual edition, through the good help of John Simpson and his crew at the Soil Conservation Work Unit here has developed into one of the Chief's largest, and we believe one of the most popular papers of the year.

News articles as well as feature stories, pictures too concerning probably the No. 1 problem of the area—conserving and preserving of the soil and striving to see that each acre of agricultural land produces to its capabilities—will be the prime effort in next week's issue.

Special articles are being prepared by farmers, ranchers, businessmen and other conservationists of the area for next week's issue.

ONE THAT DIDN'T GET AWAY—Pictured are Otis Layman, 523 Koberland, San Angelo, and his father, W. E. Layman, Comanche, with a whopping 46-pound catfish landed on a trotline at Lake Comanche last Wednesday morning. This yellow cat, second largest ever reported to be taken from Lake Comanche, was caught a perch, which had been dripped in "Gypsy Oil." The largest fish reported caught at the local lake is one caught last month, a 52-pound catsfish, by Autrey Graham and Jim Cotten, Comanche.

Newburg, Stag Creek, Soda Springs Top District Winners

Newburg, an old hand at winning prizes, continued her winning ways in the District Community Contest last week, taking first place in both the Rural Neighborhood Progress Contest and the Pasture Improvement Program. The cash award in each case was $100 and the total of $20 was thh highest amount received by any club in the 20 county District contests. It was the third consecutive year for Newburg to finish first in the district and last year that club went all the way to win State Honors.

Stag Creek always some kind of a winner until last year when that club failed to compete, this year was second in the District in the Rural Neighborhood Contest and fourth in Pasture Improvement Contest. In addition to the trophies, Stag Creek will receive $75 in cash from the Rural neighborhood Progress Contest and $55 from the pasture program, making a total of $130.

Soda Springs Club, which has almost enough certificate awards to cover the front end of their community house, won two more awards this year in addition to $115 in cash. Soda placed 5th and was awarded $50 in the Progress Club contest and moved up to third in the pasture contest to win $65 in cash bringing the total cash earnings to $115.

Amity finished 7th in the Rural Neighborhood Progress and 8th in the pasture improvement program and was presented a certificate.

Other communities placing in the Rural Neighborhood Contest were: Armstrong of Bell County third, cash prize $50; Dog Ridge of Bell County 4th and a cash prize of $50, and Nimrod of Eastland County, a certificate.

Other winners in the Pasture improvement program included Armstrong of Bell County, second with a cash prize of $80; Nimrod County 5th with a cash prize of $50; Mooresville of Falls County 6th with a cash prize of $50; Dog Ridge of Bell County received a certificate.

Initial appropriation of $75,000 for planning this Comanche County project was made by Congress in 1957. Subsequent grants in 1958 and 1959 brought planning funds to a total of $300,000.

$17,000,000 Project

The proposed dam at Proctor is estimated by the U. S. Army Corps of Engineers to cost $17,000,000.

Plans call for construction of a 12,851 foot earthen dam to provide 31,400 acre feet of conservation storage, a 32,700 acre foot sedimentation pool and 256,600 acre-feet of flood control storage.

Among others in the delegation to Washington will be Edwin L. Keller, Erath County Attorney and president of the Central Texas Flood Control and Water Conservation Association; Dale W. Harbin, Erath County Judge; Dick Harbin and B. C. Gaines, Dublin, and T. D. Craddock, Hamilton.

TEXAS PRESS ASSOCIATION

The Comanche Chief

Established in 1873.
J. C. WILKERSON
Editor and Publisher.
Published Every Friday.

SUBSCRIPTION PRICES: $2.50 per year, $1.50 for 6 months in Comanche County and on rural routes of Dublin, Gorman, Blanket, Carlton, May and Zephyr. $3.00 per year, $1.75 for 6 months elsewhere in Texas. $3.50 per year, $2.00 for 6 months. Minimum subscription accepted $1.50. Entered at the Post Office at Comanche, Texas, as second-class mail matter.

Comanche County walked off with the two first places in the 20-County District in the Rural Community Progress Contest when Newburg finished in first place, and Stag Creek in second position.

• •

The County did almost as well in the Pasture Improvement Contest when Newburg again finished first and Soda Springs third.

• •

Amity, the fourth community contestant in Comanche County, was honorably mentioned by finishing seventh in the district in the Rural Progress Contest and 8th in the Pasture Improvement Contest.

• •

Newburg will receive $200 in prizes, Stag Creek $75, and Soda Springs $65.

• •

Comanche County, one of the first in Texas to organize boys and girls farm clubs, perhaps has won more honors in this field than any other two counties.

• •

This is the third consecutive year that Newburg has won the top honors in the District Community Progress Contest, and last year went all the way to win the State title.

Since Newburg won first place in both contests last week, we will devote most of the space in this department to that community this week and will have something to say about the other communities later.

• •

Since Newburg was the State winner last year, in some ways it made it even harder for that club to win the district again this year, as one of the rules of the Progress Club contest is that the judging is based on the progress made since the judging was made last year. In other words, the judging is upon improvements or progress.

• •

A little historical data, however, should be given here to better understand the situation.

• •

Newburg is the oldest community in Comanche County, and it was there that the first settlement was made in 1854, two years before the county was organized.

• •

Most of the people of this community are descendants of these pioneer families and are natives of the section.

• •

The land is some of the richest in the county, and, perhaps, the best improved.

• •

There are 55 families in the Newburg community, 52 of whom are land owners.

• •

Forty-eight of these families took part in the Community Progress Contest during the year and filled out questionnaires and reports for the judges' information.

• •

Of the 55 families, all but three have residential telephones and practically all have electric refrigerators and food freezers.

All the heads of these 55 families except eight devote the major portion of their time to their farm and ranch work and management.

• •

Six of the men work in town, one manages a stock farm, and one is a farm worker for hire.

• •

Last year these farmers cultivated 5,995 acres of land and had 23,372 acres in pasture land.

• •

On the inspection tour made by the judges and friends in the carvan, ten stops were made for home and farm and pasture inspection.

• •

Previous to the inspection tour, colored slides were made of many activities on the farms not visited and these were shown later in the day on a screen at the Community House with two ladies explaining each scene.

• •

Some farmers in the community have made more extensive improvements than others during the past 12 months, but all have done something progressive.

• •

During the last 12 months, Sid Burton has constructed 2 miles of terraces on his place.

• •

John Burton has had 300 yards of levees built on his ranch.

• •

The fine machine shop erected last year on the J. B. Maples farm, which attracted so much attention last year, could not be counted in the contest this year, yet the Maples family made other improvements during the year just closed. He terraced and beautified his yard and made improvements on his well, constructed feeders and troughs.

• •

Mr. and Mrs. Dave Farrar purchased a new electric range during the year.

• •

Inspection of the farm home of Tom and Elbert Cox drew high praise. The yard had been landscaped under the direction of an expert. A nice apartment had been added for the use of Elbert. The entire hourse has a new roof. All the walls have just been refinished on the interior. They have refinished the master bedroom floor and put tile on the bath floors. They added a new deepfreeze and have bought a power mower and a new pleasure motor boad. The Cox Brothers also eradicated prickly pear from 95 acres of land.

• •

The picturesque 80-year-old home of Randall Burton has been remodeled and restored and has been equipped with modern conveniences, but at the same time preserving the old style architecture. New flors were put on the porches, and 3 new windows were added. Sheetrock and textone has been put on the walls; a utility porch was built; the stairway walled in; and a hot water heater mas added.

Mr. and Mrs. Frank Weaver, who have an attractive home of the Alamo type just off Highway 16, this year added a new bedroom, bath, and a utility porch and installed an air conditioner.

Mr. and Mrs. Tom Spencer this year by purchase, terraced added 110 acres to their ranch it, and bought a new

Law Requires Reporting Motor Vehicle Mishaps

State Highway Patrolman W. H. Long warns motorists of the laws governing reporting accidents in which motor vehicles are involved, and urges compliance to the regulation.

Patrolman Long said: 'All accidents must be reported if there is as much as $25.00 damage, and the law requires you to contact the nearest office of the sheriff or Highway Patrol by the quickest means of communications when accident results in injury or death to any person."

The Highway Patrolman concluded "We need the co-operation of every person in Comanche County so we can have a better accident reporting rate."

Jewelry For '59 Has New Feeling Of Sumptuousness, Shape, And Color

by Mrs. Dorothy K. Diddle,
Comanche County
Home Demonstration Agent.

With the flattering simplicity in clothes, jewelry has a new feeling of sumptuousness, shape, length, and color. White is making the biggest splash or white mixed with the frosted look. There is little "one color", but rather a disfussed effect like stained glass turquois is flattering to every skin tone. Green, from jade to emerald; amber and crystals are also good.

The high, bunchy look of bibs and chokers add the decorative touch to open necklines. Earrings have been changed to conform with shortened necklaces. The basic rule: The shorter the necklace, the smaller the earring in width; they make up for it in depth. Evening earrings are just the opposite—long, slender and glittering.

Flexible bracelets take the lead to help bridge the gap left by short sleeves.

Pins take first place in jewelry. The big pin that marks a lifted waistline and the small pairs that touch up collars, pockets, lapels, or gloves lend a piquant look.

Borrowing the shape and coloring of flowers, birds, bees and butterflys is another high-fashion jewelry trent. These facsimiles of nature are done in enamel, multi-colored beads, real stones, gold, ivory or crystal.

Selection of Jewelry

One of the most important functions of the choker or bib style necklace is to make the face appear as lovely as possible. In order to do this the shape, color and textures of the beads should be in perfect harmony with the face and costume.

The classic choker necklace of pearls appears in high fashion colors of white, shaded pastels or mother of pearl in such colors as navy, olive green and cyclamen. The textures will vary from the brogue, the pebbled, to the satin smooth finish. Pearls will also be found in combination with beads of different textures and colors. Because the eye is so attracted to the strand of beads, its selection should be given the same careful consideration as the neckline of your costume. The choker or bib produces a pleasing roundness and also provides a soft transitional effect between the neckline and the face.

In selecting the choker, the size and the shape of the beads should be considered. The pearls should be kept in proportion to the face. A bead that is large will make a thin face seem thinner, and a bead that is tiny will make a large face seem larger.

The bib necklace that fits the base of the neck will add apparent width to the face and at the same time camouflage a boney structure.

An illusion of length may be created by necklaces which do not fit the base of the neck closely. Short oval loops of beads have a slight slenderizing effect. Long strands of beads will increase the apparent length of the face and throat. A person with a prominent bustline should refrain from wearing a dangling rope of beads. One choice strand of beads may be used with several costumes.

Belve Bean Gets Write-Up In Star-Telegram

Belve Bean, Comanche County sheriff, received front page publicity recently in the Star-Telegram. In his daily column, "This Is West Texas," George Dolan had the following to say about Comanche County's popular sheriff:

Big Belve Bean, who used to pitch for the Cleveland Indians, got some spectator reaction not long ago when he played ball with a convicted forger.

Bean is sheriff now and the forger spent 10 months and 12 days in the county jail before he went to Huntsville to start serving a penitentiary term.

This is his second stretch in the penitentiary and, when it seemed like he was sure to go back again, he was a bitter man.

He wouldn't talk to anyone during the first couple of months in county jail.

Then Bean and his wife, who often brought the prisoner his meals, began thawing him out.

Before long, he was getting downright sociable again.

Trust Kept

So, the day before Christmas, Bean asked him how he would like to eat Christmas dinner with his family here.

The prisoner answered, naturally, in the affirmative.

"Can I trust you to come back?" asked Bean.

'I'll be back," swore the prisoner, 'if I have to crawl back on my belly."

Insiders, who knew about it, thought the sheriff had made a terrible blunder.

But, by 4 p.m., the prisoner was back.

Later, when it was time for the prisoner to be taken to Huntsville, he asked Bean if he could go alone.

"They'd make me a trusty if I showed up by myself," the prisoner explained.

Bean thought it over and decided to take a chance with him.

The sheriff put the prisoner on a bus in the morning.

Again he was told that he'd stuck his neck out too far.

One Thing Sure

But, that night, the prisoner called the sheriff from the penitentiary. He had checked in, turned over his papers and was beginning his term.

The sheriff proved to a man who thought the world was against him that he had faith in him.

The odds, are good, figures the sheriff, that the fellow will go straight when he finishes his prison term.

Bean gets letters from the fellow ever so often.

The sheriff may have straightened out a bent life by sticking out his neck.

But, whether it turns out that way or not, one thing is sure: Sheriff Bean sure made a pen pal.

The Gustine F.F.A. held its ond annual Parent and Son nquet Tuesday night, April 21 7:30 o'clock in the High School m. A delicious barbecue din- r was served by Hill Catering rvice of Stephenville. There re 170 guests and members sent.

The invocation was given by F. Cox.

Chapter President Bill Belsh- called the meeting to order, d officers gave the opening remony.

Welcome was given by Gailord hite, and in response Victor ankinson expressed the com- unity's appreciation for the oc- sion.

Ronnie Stephens, assisted by veral chapter members, intro- uced the special guests.

President Belsher presented the hapter Sweetheart, Miss Darla oore, daughter of Mr. and Mrs. ennedy (Red) Moore, with a ray of red gladiolas, and ex- ressed the chapter's gratitude her for having served in this pacity.

Gayle Harris related a few gh points of the chapter pro- am of work. There are 26 mem- rs who are carrying, or have mpleted a total of 84 projects is year. Projects consist of 16 ws for pig production, 72 pigs r pork production, 89 ewes for mb production, 207 lambs for utton, 22 calves for beef, 22 ws for calf proddction, 1,100 ickens for broiler production, acres of cotton, 30 acres of anuts, 15 acres of watermel- s, and 20 chucker quail.

Creath Davis, Comanche, State ce-president of '57-'58, made a ort enjoyable talk, which was ceived very warmly, on the ms and purposes of the F.F.A.

Special awards were given by ayland Carson, assisted by Billy elsher. The first tribute was honor of the only honorary ember now living in the Gus- ne community, Guy Gunter. He as continued to expand his holehearted support through is year. Mr. Gunter, in co- peration with the Gerald Feed ompany, has donated an un- olicited amount of supplement, me 1200 pounds, to feed out 2 chapter pigs. He also has iven the chapter members some 000 baby chickens. He is a very enerous contribution on any and raising campaign, F.F.A., as ell as any other civic, social, r community project. This is nly listing a few of the many ings Mr. Gunter has done to enefit the Gustine FFA Chap- er.

Appreciation Awards were giv- n to five men: Wayne Adams, ocal stockman; Wylie Walker, anager of Higginbotham's, Gus- ine; I. C. Willingham, cashier f First State Bank; Homer iller, Precinct 3 Commissioner; nd Angus Dickson Jr., County gent. These awards were given as a token of appreciation for encouragement, cooperation, and assistance given the Future Farmers of America, in helping them accomplish outstanding achievements in farming, leader- ship, citizenship and community welfare.

The Chapter Star Farmer was awarded to Ronnie Stephens, son of Mr. and Mrs. George Steph- ens, by Chapter Advisor Weldon Kirby, for outstanding goals ac- complished in the F.F.A.

The last award was somewhat of a reverse in general proced- ure. The entire chapter surpris- ed Mr. Kirby, by making him an honorary member, and the capter officers officially confer- red the degree and awarded him an individual plaque signifying his Honorary Chapter Farmer Degree Memembership.

Guests from Pottsville, the F.F.A. String Band, entertained with well received musical ar- rangements while the dinner was being served. They also partici- pated in the feature entertain- ment for the evening, along with Charles Miller, Gustine chapter treasurer, who gave a hilarous monologue entitled "My First Football Game."

Gustine chapter was honored and felt fortunate in having, as guest speaker, the past year's State F.F.A. President, Billy Penn. Billy gave an outstanding talk on modern agricultural trends and the importance of general agricultural knowledge in all walks of life.

Following the closing ceremony, in which all guests and members participated in the salute to the by Gustine School Superintend- ent Gilbert Davis.

Chapter officers this year are flag, the benediction was given Bill Belsher, president; John Banner, vice-president; Charles Miller, treasurer; Jack Patton, secretary; Phil Swann, sentinel, and Gayland Carson, reporter.

More Data On Evridge Building

(We are indebted to Mrs. Wade Evridge and son, Joe, for the following additional information about the Evridge Building, obtained after the main article was written. Most of the information was gath- ered from the abstract which does not mention the buildings on the land at various times.)

The land on which the City of Comanche now stands was out of the John Duncan Survey and was conveyed to the County for the purpose of establishing a new county seat site by Duncan's land agent, T. C. Frost.

The County of Comanche sold Lot 4 Block 1 of the City of Comanche to O. T. Tyler of Coryell County on July 11, 1862 for the consideration of $16.00.

The deed was signed by J. M. Green, Chief Justice (County Judge) and by three members of the Commissioners Court: James E. McKinzie, James Farmer, and Simeon Welch.

There is evidence that the two story brick building on the lot was built about 1875 by Orville Thomas Tyler. The lot was sold in 1882 for taxes.

December 13, 1889 the lot was sold to N. Lasker and T. C. Hill. On April 14, 1890, Lasker & Hill sold the lot to the Comanche Loan and Improvement Company. This company consisted of T. R. Hill, president; C. B. Mason, secretary; G. A. Freeman, and N. R. Lindsey, trustees.

Who occupied the building at various times is not revealed by the abstract, but as late as 1902 there was a saloon in the build- ing operated by A. F. Blue with Will Haney as chief barkeeper.

The abstract shows that the first act of creating Comanche County by the Texas Legisla- ture was passed January 25, 1856.

The abstract reveals that what is now Comanche County was a part of the Viesoa Municipality of Mexico in 1823. It afterwards became part of the Milam Dist- rict and was joined to the Rob- ertson Colony. The area of gov- ernment at that time was at (Nashville) Texas, just below the junction of the Little River. The seat of government was later moved to Cameron and in 1854 what is now Comanche County was attached to Coryell County.

The abstract also reveals these isolated pieces of information: Lon Price, County Clerk at Com on November 13, 1858.

ENGAGEMENT ANNOUNCED—Mr. and Mrs. Lon Lancaster, Lon W. Walcott, Comanche, announce the engagement of their daughter, Dorothy Nell, to Pvt. Glen Stahnke, son of Mr. and Mrs. George Stahnke, Priddy. Former Comanche Girl Disappears

Mrs. Sue de Graffenried, of Brownsville, a school teacher of that city, has mysteriously disappeared, according to an Associated Press released appearing in the Dallas Morning News on Tuesday, April 28.

Mrs. de Graffenried was born in Comanche in 1925 as Sulena Speed, daughter of the late B. W. Speed, former Comanche school superintendent and County Tax Collector. Her mother now lives in Waco.

The article from the Dallas News follows:

BROWNSVILLE — The search for a missing elementary school teacher and mother of two children was extended to Mexico Monday.

A state-wide alarm was put out for Mrs. Sue de Graffenried, 33, a fourth grade teacher at Clearwater Elementary School here, who was last seen Friday night. Police said authorities in Matamoros, Mexico, across the Rio Grande from here have been alerted.

Brian de Graffenried, husband of the missing woman and local tile company official, said his wife was in good spirits and in good health. He could offer no reason for her disappearance. He said the family car, a 1961 Pontiac, was also missing.

The family has offered $500 for information leading to her whereabouts. The de Graffenried children are Leslie, 2, and Susan, 3.

CARD OF THANKS

We wish to express our deep appreciation to every one for the many kindnesses extended at the loss of our beloved husband and father, Robert O. Helmecke. We are especially grateful for the kindnesses shown by the doctor as well as the neighbors, pallbearers, and persons who sent flowers and brought in food. May God bless each of you. — Mrs. Robert O. Helmecke and children.

News From Soda

H. M. O'Brien Jr., Reporter

A goodly number of the community was present for the election of officers and other business at our regular fourth Tuesday night business session. In the best interest of the community, in sharing the work load and responsibilities, and in training leadership it is generally conceded that there should be a change of leadership at these annual elections; and these principles were rigidly adhered to in electing a new club secretary, Mrs. W. W. Causey, a new vice-president, Jack Witten, and new entertainment chairmen, Cecil and Inez Fisher. But when it came to electing the president of the club this high resolve was put aside and Bob Gressett was unanimously re-elected, and for the life of me I just can't understand that.

Of course, as you all know, Bob is just an all around good buy, but what of it; that's true of everyone I know in the community. I guess for one thing everybody I know likes and respects Bob Gressett; he's a loyal member and worker in the church (Taylor Chapel Congregational Methodist); there isn't a more public spirited and community minded citizen in anybody's community than Bob; then too, he has the qualities of leadership and the ability to inspire others to work together for the good of the community. One other thing I think of is this: Bob just naturally thinks Soda Springs is just about the best community there is anywhere, but by people pitching in and working together it can be still better. Of course, our friend Bob has a number of other good qualities, but space doesn't permit listing them all and anyhow, as many good buys as many good guys as there are in Soda, I just don't see why they keep re-electing Bob.

After all, one of the main reasons Bob Gressett has been such a good president is Ina, and secretary have done a swell job, and we expect Jack Martin as vice president for the coming year, and Mrs. Mattie May Causey as the new secretary will work equally well, as well as Cecil and Inez Fisher who replace the talented Jack and Thelma Martin as program chairman. So I guess actually the real reason Bob Gressett has made such a good leader of the club is that all over the community he has such a good bunch of people to work with him.

Final business of the evening was the election of official coffee taster which includes the job of club reporter. I regret to report this was not an unanimous vote, as only 3 people voted for me, but as there was no opposition for this important post I was re-elected, and Bob Carpenter, if you don't see to it that James and Bill get these Soda reports printed I'm going to lose those 3 votes next time.

Bob, just condense this if you have to or want to; just say: Big Vote Cast at Soda as Bob G. re-elected pres.; J. Martin, V.P.; Mrs. W. W. Causey, Secty.; Cecil Fishers program chairmen. Socite nite 4th Tuesday.

See You At Soda!
